

CURA+ RESOURCES

Cura+ product overview

Care software built around CuraAI, for care providers, therapists and health organisations. Ready products, bespoke builds, or both.

Illustrative data. All names fictional.

ABOUT CURA+

Software for health and social care

Cura+ builds software that helps care teams spend less time on admin and more time with the people they support. You can use a ready SaaS product, commission a bespoke build, or combine the two.

Products at a glance

Product	Status	In brief
Predictive care	Commissioned	CuraAI organises care notes and highlights changes for your team to review.
Cura OT	Live	Available now. Scan a room on iPhone or iPad and review adaptation options as the occupational therapist.
CQC audit preparation	In build	Prepare for inspection with your own evidence, organised.
Care provider suite	Commissioned	Onboarding, matching and family check ins in one platform.
Cura+ Staff App	Live	The Cura+ Staff App is live and integrates with Cura Admin.

Live: available now. **Commissioned:** commissioned and not yet live. **In build:** in build and not yet available.

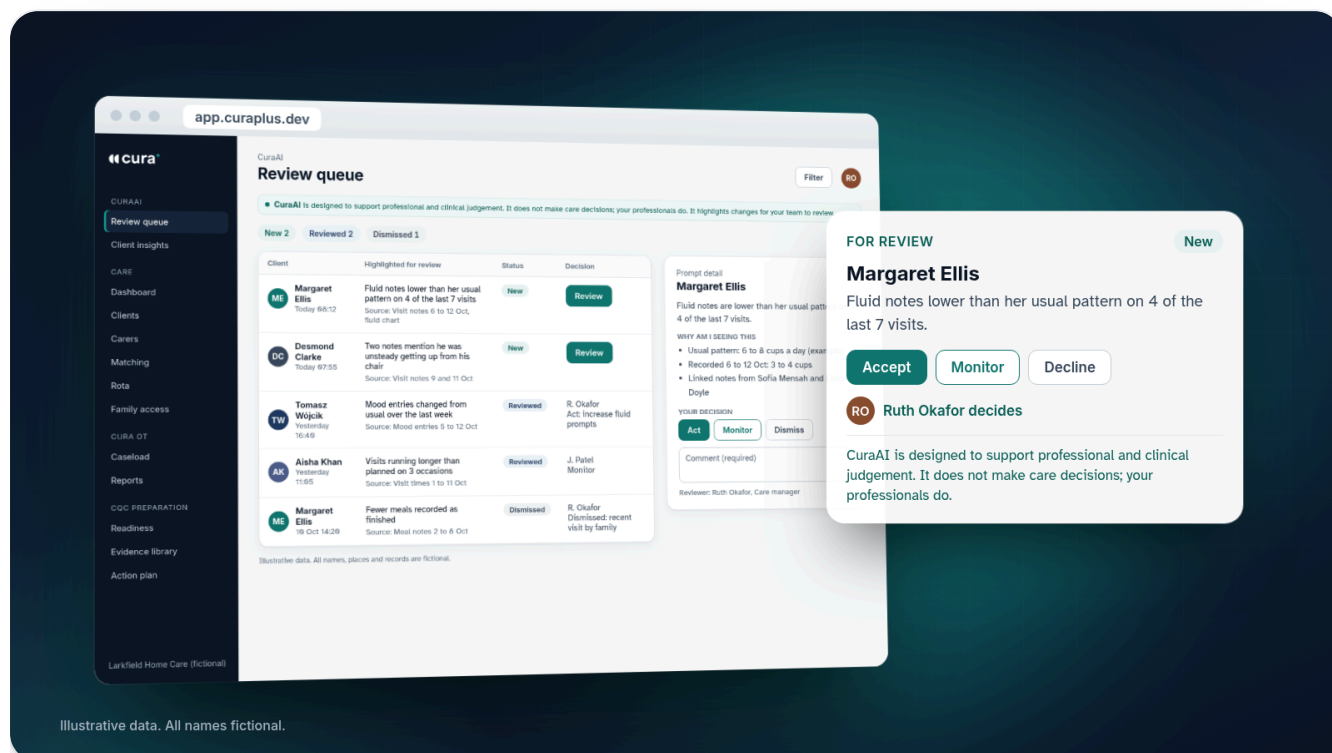

Pricing on request. Costs depend on the product, the size of your service and any bespoke work.

How CuraAI is used

CuraAI is designed to support professional and clinical judgement. It does not make care decisions; your professionals do.

Every suggestion CuraAI makes is shown to a named person, who accepts, monitors or declines it.

CuraAI highlights changes for your team to review

Illustrative data. All names fictional.

CuraAI organises care notes and highlights changes for your team to review. It is designed to support professional and clinical judgement and does not assess risk on its own. It does not make care decisions; your professionals do.

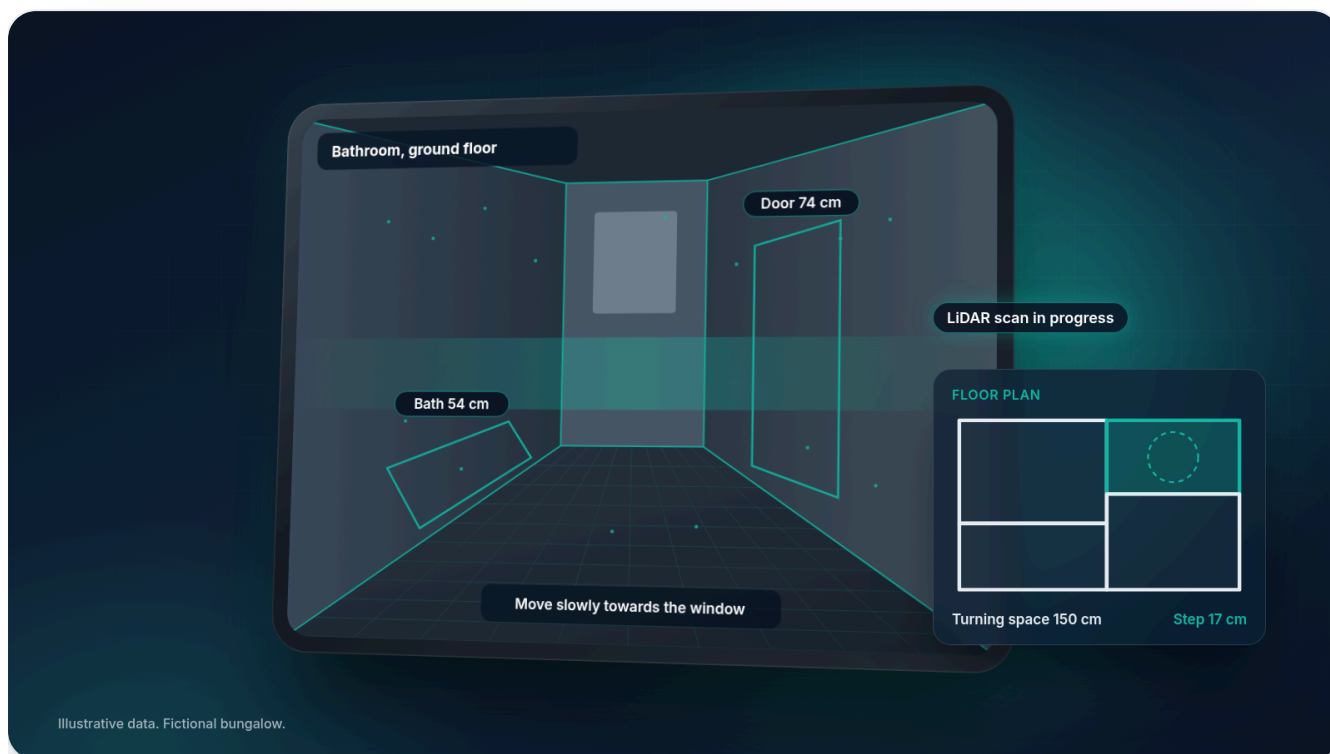

How a review works

- CuraAI shows what changed and the care notes it came from.
- A named member of your team reviews it and records a decision.
- Changes can be reviewed in the activity history.

CuraAI is designed to support professional and clinical judgement. It does not make care decisions; your professionals do.

Predictive care has been commissioned and is not yet live.

Scan a room and review adaptation options

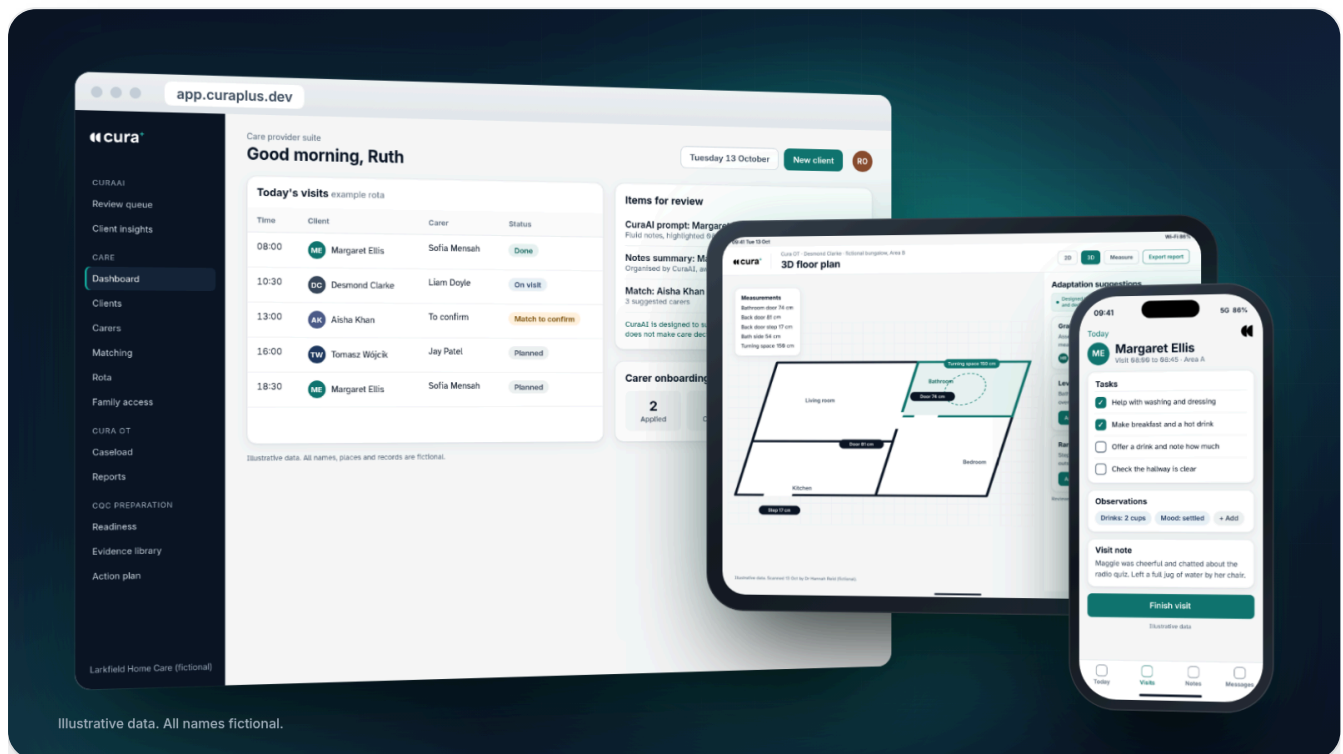

Illustrative data. All names fictional. Device shown is a generic tablet.

Cura OT is available now. Scan a room on iPhone or iPad and review adaptation options as the occupational therapist.

Cura OT suggests adaptation options based on your measurements and assessment notes. The occupational therapist reviews and decides on every recommendation.

Cura OT is live. Requests for occupational therapy support made through the app are passed to Dignity Access Limited, the official Cura+ reseller for England and Wales, who will be in touch.

Onboarding, matching and family check ins in one platform

Illustrative data. All names fictional.

- **Matching:** suggested matches, explained. Your manager confirms every match.
- **Family check ins:** updates for families, shared as agreed with each provider.

The care provider suite has been commissioned and is not yet live.

Prepare for inspection with your own evidence, organised

The screenshot displays the Cura+ CQC audit preparation interface. On the left is a dark sidebar with navigation links: CURAAI, Review queue, Client insights, CARE, Dashboard, Clients, Carers, Matching, Rota, Family access, CURA OT, Caseload, Reports, CQC PREPARATION (highlighted), Readiness (active), Evidence library, and Action plan. The main content area is titled 'CQC audit preparation' and 'Readiness overview'. It includes a disclaimer: 'Cura+ is an independent company. This tool helps providers prepare and is not affiliated with, endorsed by or approved by the Care Quality Commission. It does not predict or guarantee any inspection rating.' Below this, it states 'Larkfield Home Care (fictional). Your own evidence, organised by key question. No rating is shown or predicted.' The interface shows five key questions: Safe (42 evidence items, 3 gaps to prepare), Effective (35 evidence items, 2 gaps to prepare), Caring (28 evidence items, 0 gaps to prepare, evidence in place), Responsive (31 evidence items, 1 gap to prepare), and Well led (24 evidence items, 4 gaps to prepare). A 'Preparation actions' table lists tasks like 'Well led: governance', 'Safe: medicines optimisation', 'Safe: staffing', and 'Responsive: person centred care' with their respective owners, due dates, and statuses (Open, In progress, Done). A footer note states 'Illustrative data. All names, places and records are fictional.'

Cura+ is an independent company. This tool helps providers prepare and is not affiliated with, endorsed by or approved by the Care Quality Commission. It does not predict or guarantee any inspection rating.

Larkfield Home Care (fictional). Your own evidence, organised by key question. No rating is shown or predicted.

Key Question	Evidence items	Gaps to prepare	Status
Safe	42	3	Gaps to close
Effective	35	2	Gaps to close
Caring	28	0	Evidence in place
Responsive	31	1	Gaps to close
Well led	24	4	Gaps to close

Quality statement	Action	Owner	Due	Status
Well led: governance	Board minutes for Q3 not yet linked	Jay Patel	23 Oct	Open
Safe: medicines optimisation	Spot check records for October to upload	Ruth Okafor	20 Oct	In progress
Safe: staffing	Training matrix refresh for new starters	Sofia Mensah	27 Oct	In progress
Responsive: person centred care	Visit notes linked to evidence map	Liam Doyle	16 Oct	Done

Cura+ is an independent company. This tool helps providers prepare and is not affiliated with, endorsed by or approved by the Care Quality Commission. It does not predict or guarantee any inspection rating.

CQC audit preparation is in build and not yet available.

Cura+ Staff App Live

The Cura+ Staff App is live and integrates with Cura Admin.

Integrations, data and security

Connecting your systems

Cura+ exchanges information with the systems you already use, through their published interfaces or regular file exports where no interface exists. Which systems are connected is agreed per client.

- Rostering and visit scheduling
- Care records and visit notes
- HR, recruitment and training records
- Payroll and invoicing
- Local authority and NHS systems, where access is agreed

Data protection

As a care provider you are usually the controller and Cura+ acts as processor under a data processing agreement. You own your data and you can export it. Hosting is in the UK and EU.

We do not currently claim any certifications. We will share our current security documentation on request.

Working with us

- A named point of contact
- Support Monday to Friday, 9am to 5:30pm, and we reply within one working day
- Planned updates with release notes and regular review meetings
- Further service levels confirmed in each agreement

COMPANY

Who we are and how to reach us

Leadership

Stephen Fielding, Founder and CEO.

Partners

Dignity Access Limited is the official Cura+ reseller for England and Wales. Requests for occupational therapy support made through Cura OT are passed to Dignity Access Limited.

We also work with confidential NHS Trusts under pilot.
